Critical Challenges

Challenge	Mitigation
<i>Potential difficulty in meeting the tight timeframe to disburse training funds and schedule teacher training.</i>	<i>Team is closely monitoring operational processes across the 25 districts; technical support provided during Rakor Kabupaten expected to improve capacity to complete activities within required timeframe.</i>
<i>Concern that district trainers will not sufficiently adapt their approach to the new system and training materials.</i>	<i>Trainer Fidelity assessment will provide data that will illuminate the situation and inform any need to adjust the 2016 training materials accordingly.</i>
